**Thank You** for supporting me by sharing, streaming purchasing my music!

Thank you to all of the musicians who played on my records. Especially those who expressed their excitement to do so! What an honor! You'd laugh if I told you how our conversations go when I call them. Sometimes it sounds like counseling sessions. I don't take them for granted!

Thanks to all all who cheered me on during this extremely vulnerable journey! I'm kinda out here in these artist streets!

Thanks to my husband, Darius, for EVERYTHING! I KNOW I be testing his patience at times, but... he allows me to do so! I love our team and I love what we have built. Love you!

Thanks to my mom and dad, Aveyona, Riley and my ENTIRE family for encouraging me, especially my dad who is always my first call! "Daddy can you..." Hey, it's his fault that I'm a daddy's girl!

Thanks to my bestie Nurisha Liggins for always reminding me that I said I wouldn't, and then I do! Always stretching me!

Thanks to my photographer, Cory Hale! I can't do any project without him! Love to the Hale family!

Thanks to my Tonyaaaaaah! You've been rocking with me for a looooooong time! Thank you for this beautiful album artwork and everything else I beg you for!

See! This is why I struggle with dropping names...At this point, I can keep listing out folks! Geez!

Thank you to every DJ that includes my music in their shows, playlists, and social media groups! I've never asked, and you guys lift me UP! You guys rock!

Thank you to every person who has been courageous enough to share their journey through the arts. I'm a fan of all of you! I know what it feels like to release something from your heart, only to have the world scrutinize it to a degree you may not have asked. KEEP ON GOING! Your fan club is bigger than the haters club. I guarantee it!

Thank you GOD! There are too many things to list that I'm thankful for! I'll keep using what you blessed me with to share with the world!
